

What is a Life Plan Community?

Life Plan Communities like Givens Estates offer a **variety of independent living choices** all on one campus, as well as the assurance that future health services will be available for you when and if you need them. Also known as continuing care retirement communities, or CCRCs, older adults live in an active community with a variety of opportunities for personal enrichment in exchange for a one-time entrance fee and monthly fees.

WHY CHOOSE GIVENS ESTATES AS YOUR LIFE PLAN COMMUNITY?

Life Plan Communities are for **active adults** who want to live fully each day with peace of mind that when their health care needs change, they have the needed support in place. Givens Estates is a **licensed and accredited Life Plan Community** that provides independent living, services and amenities, and health services allowing residents to create a plan for future care and financial security.

In addition to these health services, Givens Estates has a **home care program**, supporting residents with additional services when they desire to remain in their homes for as long as possible. So when you live at Givens Estates, you can focus on enjoying the life you love rather than worrying about the details of home maintenance, chores, and future care.
